far. The company analyzes digital and retail sales to determine which games people are buying. While some longtime family favorites are still popular, violent video games like online multiplayer shooters are also dominant, which can be worrisome for parents. That's why each video game comes with an age rating and content from the Entertainment Software Rating Board, making it crucial for parents to educate themselves about these ratings, so they can decide which video games are appropriate for their children. Video games receive a lot of scrutiny, but parents should also keep in mind other places that their children can be exposed to violence, such as movies, TV and the internet. At the end of the day, parents have to make a call when it comes to their children and violent video games, says Umang Jain, co-founder of technology gaming company SplashLearn.We look at a list of NPD as well as a list of the all-time best-selling games from IGN, a popular video game site, to determine the best video games on the market at the moment. We have included your ratings so you can make an informed purchase if you decide to give one of these to the player in your life.
